Dear Mr. Jaffe:

This letter is about factory farming of hens to produce eggs. They are packed into unbelievably small wire cages to live their entire life.

Then on top of that, they are put into a forced molt to get even more eggs out of them. This is done by starving them for weeks.

This forced molt is outlawed in most of Europe.

After all the torture these hens go through, can't you give them this one concession and outlaw forced molting.

As a human being, please show some decency and morality toward these pathetic creatures. Let morality win this one time over money. Please.

We strongly support docket 98P-0203/CP to ban forced molting.

Sincerely,

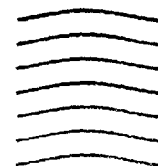

A handwritten signature in cursive script that reads "Mr. & Mrs. Fred Domer".

Mr. & Mrs. Fred Domer

98P-0203
